Ten essays on nature, ritual, and philosophy  
“ that are so point-blank vital you nearly  
need to put the book down to settle  
yourself ” (San Francisco Chronicle).

Gretel Ehrlich ’ s world is one of solitude  
and wonder, pain and beauty, and these  
elements give life to her stunning prose. Ever  
since her acclaimed debut, *The Solace of  
Open Spaces*, she has illuminated the  
particular qualities of nature and the self with  
graceful precision. In *Islands, the Universe,  
Home*, Ehrlich expands her explorations,  
traveling to the remote reaches of the earth  
and deep into her soul. She tells of a voyage  
of discovery in northern Japan, where she  
finds her “ bridge to heaven. ” She  
captures a “ light moving down a mountain  
slope. ” She sees a ruined city in the face of  
a fire-scarred mountain. Above all, she  
recalls what a painter once told her about art  
when she was twelve years old, as she sat for  
her portrait: “ You have to mix death into

everything. Then you have to mix life into that. ” In this unforgettable collection, Ehrlich mixes life and death, real and sacred, to offer a stunning vision of our world that is both achingly familiar and miraculously strange. According to National Book Award – winning author Andrea Barrett, these essays are “ as spare and beautiful as the landscape from which they ’ ve grown. . . . Each one is a pilgrimage into the secrets of the heart. ”

Gretel Ehrlich ’ s world is one of isolation and wonder, of pain and grace, and these elements ignite her vivid imagination. She writes of ravens and elk and prairie dogs, and eagles falling out of the sky. She tells of a voyage of discovery in northern Japan, where she finds her "bridge to heaven." She captures a "light moving down a mountain slope." One evening there is a contrapuntal dance of death: a calf she has tried to save,

and a friend and mentor both die. She remembers what a painter once told her when she was twelve years old, as he was painting her portrait: "You have to mix death into everything. Then you have to mix life into that. If they are not there I try to mix them. Otherwise, the painting won't be human." Through these explorations, in prose that is supple and muscular and evocative, Ehrlich begins to understand her own longings, her own nature, and the relatedness of her life to the universe. "A volume of ten deep, wandering essays that at times are so point-blank vital you nearly need to put down the book to settle yourself." -- Peter Stack, San Francisco Chronicle "Her essays, delicately combining interior and exterior exploration, are as spare and beautiful as the landscape from which they've grown... Each one is a pilgrimage into the secrets of the heart." -- Andrea Barrett, The Cleveland Plain Dealers

These transcendent, lyrical essays on the West announced Gretel Ehrlich as a major American writer— “ Wyoming has found its Whitman ” (Annie Dillard). Poet and filmmaker Gretel Ehrlich went to Wyoming in 1975 to make the first in a series of documentaries when her partner died. Ehrlich stayed on and found she couldn ’ t leave. *The Solace of Open Spaces* is a chronicle of her first years on “ the planet of Wyoming, ” a personal journey into a place, a feeling, and a way of life. Ehrlich captures both the otherworldly beauty and cruelty of the natural forces—the harsh wind, bitter cold, and swiftly changing seasons—in the remote reaches of the American West. She brings depth, tenderness, and humor to her portraits of the peculiar souls who also call it home: hermits and ranchers, rodeo cowboys and schoolteachers, dreamers and realists.

Together, these essays form an evocative and vibrant tribute to the life Ehrlich chose and the geography she loves. Originally written as journal entries addressed to a friend, *The Solace of Open Spaces* is raw, meditative, electrifying, and uncommonly wise. In prose “as expansive as a Wyoming vista, as charged as a bolt of prairie lightning,” Ehrlich explores the magical interplay between our interior lives and the world around us (Newsday).

Wyoming cowboys, ranchers, waitresses and bartenders along with Japanese-Americans interned at Heart Mountain tell their life stories during and after World War II.

A powerful chronicle of a wounded woman's exploration of nature and self  
After nature writer Gretel Ehrlich was struck by lightning near her Wyoming ranch and almost died, she embarked on a painstaking

and visionary journey back to the land of the living. With the help of an extraordinary cardiologist and the companionship of her beloved dog Sam, she avidly explores the natural and spiritual world to make sense of what happened to her. We follow as she combs every inch of her new home on the California coast, attends a convention of lightning-strike victims, and goes on a seal watch in Alaska. Ehrlich then turns her focus inward, exploring the tiny but equally fascinating ecosystem of the human heart, and culminated in a stunningly beautiful description of open-heart surgery.

A “dazzling first novel” about Japanese Americans and their Wyoming neighbors in the era of WWII internment camps (Chicago Tribune). A renowned chronicler of life in the West, Gretel Ehrlich turns her talents to a moment in history when American citizens were set against each

other, offering “ a novel full of immense poetic feeling for the internal lives of its varied characters and the sublime high plains landscape that is its backdrop ” (The New York Times Book Review). This is the story of Kai, a graduate student reunited with his old-fashioned parents in the most painful way possible; Mariko, a gifted artist; Mariko ’ s husband, a political dissident; and her aging grandfather, a Noh mask carver from Kyoto. It is also the story of McKay, who runs his family farm outside the nearby town; Pinkey, an alcoholic cowboy; and Madeleine, whose soldier husband is missing in the Pacific. Most of all, Heart Mountain is about what happens when these two groups collide. Politics, loyalty, history, love—soon the bedrocks of society will seem as transient and fleeting as life itself. Set at the real-life Heart Mountain Relocation Center in Wyoming, this powerful novel paints “ a sweeping, yet

A Haunting pilgrimage to one of China's  
holy mountains "Ehrlich . . . writes with  
tremendous grace and passion." —Miles  
Harvey, Outside "In spare, lyrical prose,  
Ehrlich inventively recounts her 1995  
spiritual trip to China and Tibet. . . . Like  
one of the landscape paintings of which she  
writes, Ehrlich's book is at once delicate,

Questions of Heaven has a message, it may reside in the author's belief in a bond across geography and generations, one transcending space and time." —David L. Ulin, *The Village Voice* "This is travel writing at its best." —Glenn Masuchika, *Library Journal*

In a tribute to the far latitudes, Gretel Ehrlich travels across Greenland, the largest island on earth. All but five per cent of the island is covered by a vast ice sheet, an enduring remnant of the last ice age. Despite a uniquely hostile environment, it has been inhabited continuously for thousands of years. Greenlanders retain many of their traditional practices: some still hunt on sleds made from whale and caribou with packs of dogs; others fashion harpoons from Narwhal tusks; and entranced shamans make soul fights under the ice. Ehrlich mixes stories of European anthropologists who

have recorded the ways of the Inuit, with artists who have lived briefly on Greenland's fringe in order to try to capture its extraordinary pure light. She travels across this unearthly landscape in the company of men and women who have a deep bond with it, and with them she discovers the realm of the Great Dark, ice pavilions, polar bears and Eskimo nomads.

"From one of our most intrepid and eloquent adventurers of the natural world: an account of her search for home--experiences traveling in Greenland, the North Pole, the Channel Islands of California, Japan; of herding animals in Wyoming and Montana, and her embrace of the balance between the ordinary and celestial. In *The Solace of Open Spaces*, Gretel Ehrlich announced her aspiration as a writer to assign the physical qualities of the earth--weather, light and wind--to our

contemporary age. In *Unsolaced*, thirty-five years later, Ehrlich shows us how these forces have shaped her experience and her understanding as she recalls the split-end strands of friendships spliced to new loves, houses built and lived in, conversations that shifted outlooks, as she tries to catch a glimpse of herself and the places she has sought as an anchor for her spirit. Ehrlich's quest is not for the comfort of permanence, but for transience, the need to be unsettled--to find stillness in the disquiet of engagement, to find in the landscapes of earth, ice, climate, genetic mayhem, and shifting canvas of memory--the possibility of longing. Ehrlich's voice is a unique amalgam of poetry and science, her attention held fast by the vegetation and animals she cares for, the lyric exaltation of insight that gives both her and her readers an intimation of a greater whole"--

Kirkus Best Books of the Year \* Kansas City Star Best Books of the Year A passionate student of Japanese poetry, theater, and art for much of her life, Gretel Ehrlich felt compelled to return to the earthquake-and-tsunami-devastated Tohoku coast to bear witness, listen to survivors, and experience their terror and exhilaration in villages and towns where all shelter and hope seemed lost. In an eloquent narrative that blends strong reportage, poetic observation, and deeply felt reflection, she takes us into the upside-down world of northeastern Japan, where nothing is certain and where the boundaries between living and dying have been erased by water. The stories of rice farmers, monks, and wanderers; of fishermen who drove their boats up the steep wall of the wave; and of an eighty-four-year-old geisha who survived the tsunami to hand down a song that only she still remembered are both harrowing and

inspirational. Facing death, facing life, and coming to terms with impermanence are equally compelling in a landscape of surreal desolation, as the ghostly specter of Fukushima Daiichi, the nuclear power complex, spews radiation into the ocean and air. Facing the Wave is a testament to the buoyancy, spirit, humor, and strong-mindedness of those who must find their way in a suddenly shattered world.
